Introduction

The media – radio, television, newspapers, magazines, and on-line – are your best sources for disseminating news and information about your programs and services to the public. Media relations is a cost-effective way of reaching your target audiences without resorting to costly advertising options.

The *Manitoba Media Directory* is an annual publication that provides up-to-date listings of provincial media contacts and information on how they prefer to receive submissions. Each year we review and update all contact and key information for every media outlet in the province; add new media outlets; and delete ones that are no longer in operation. This means that you can now devote your resources to developing and refining the communications pieces you submit to the media, instead of wasting valuable time by continually updating your own media lists.

Benchmark Public Relations has made every attempt to make this directory as comprehensive as possible. Thank you for purchasing this copy, and we welcome any comments you may have about improving future editions.

About Benchmark Public Relations

There are plenty of firms and individuals who will tell you that they have the experience and qualifications to handle your marketing and public relations requirements, but you need much more than that. You need a public relations firm that embodies the goals and objectives of your organization and who believes as passionately as you do about your organization. That's where we come in.

Benchmark Public Relations, founded in 1992, has expanded to become an award-winning consulting firm. We provide strategic communications and marketing, issues management, research and evaluation, copywriting, editing, proofreading, media buying, event planning, website design and maintenance, contract administration, print design and production, and media relations and communications training. In 2005, we opened an office in Winnipeg to offer our expertise to a new market; and in 2009, we opened an office in Saskatoon to service a growing number of clients in Northern Saskatchewan.

The *Network Magazine* is a bi-annual, bilingual magazine published by The Canadian Women's Health Network. It debates women's health issues and provides research updates, news, new technology and special interest articles. News articles (500-800 words), feature articles (800-1500 words), reviews and highlights (100-300 words), and graphics and photos pertaining to women's health issues are welcome. Before writing an article, submit a query by either mail or email to the editor and provide a sample of your writing. Short submissions do not require a query. Include a self-addressed, stamped envelope with all unsolicited works. Ads are not accepted, and authors will not receive payment for their works.

Brigit's Notes is a monthly, bilingual, email bulletin that discusses women's health news, policy initiatives, research, events and calls for submissions. It is available on the website.

A community cable TV channel that features local news, information, events and ads. WCG also provides high-speed internet, website design, and cable TV.

PSAs are welcome, but they must be brief (25 words maximum). Include the following information with all PSAs: Who the message is for or from; What the message is; When and Where the event will take place; How much are the tickets; and Who should the public contact for more information.

PSAs are only accepted from non-commercial organizations and must be submitted at least two weeks before the event. PSAs will not be accepted over the phone. PSAs should be submitted to head office by mail, email or fax.

The following affiliate stations operate separately from WCFtv's head office, so PSAs must also be submitted to them by either fax or mail for your message to appear on their local channels.

Website: www.aptn.ca

APTN is a television network that has evolved from Television Northern Canada (TVNC), an Aboriginal TV network that has broadcasted Northern and Aboriginal programming from the Yukon to Northern Labrador since 1991.

APTN is a mandatory service and is available to over ten million households available on basic cable, direct-to-home (DTH) and wireless. APTN is aimed at both Aboriginal and non-Aboriginal audiences with programs that interest all viewers: children's animation, youth shows, cultural and traditional programs, music, drama, dance, news and current affairs, as well as live coverage of special events and interactive programming.

APTN offers a daily APTN National News and two weekly investigative news programs – APTN InFocus and APTN Investigates – that provide balanced, accurate and provocative coverage of Aboriginal issues. The program looks beyond the headlines and offers context and historical perspectives on issues. “History would have been told differently if our reporters had been there.”

APTN programming is broadcast from the Winnipeg studio and presentation

center. The majority of programs, except news and live events, originate from independent Aboriginal producers from across the country and around the world. APTN has also acquired programming from other networks.

APTN broadcasts approximately 56% of its programs in English, 16% in French and 28% in a variety of Aboriginal languages including Inuktitut, Ojibway, Inuinaqtun, Mohawk, Inuvialuktun, Tlingit, Cree, Dene, Chipweyan, Mechif, Gwich'in, Miqma'aq, Slavey, Dogrib.
